*APY = Annual Percentage Yield. Fees may reduce earnings. Early withdrawal penalties may be imposed. Rates and terms subject to change.

***Restrictions apply. Contact the credit union for details.

PAYMENT OF DIVIDENDS: The frequency and conditions upon which dividends are paid on all accounts are in accordance with the bylaws of this credit union, California law, and the Truth-in-Savings Act and Regulations. Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period. For all dividend-bearing accounts, dividends will be compounded monthly and will be credited monthly. The dividend period is monthly; for example, the beginning date of the first dividend period of the calendar year is January 1 and the ending date of such dividend period is January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date follows the ending date of a dividend period, and for the example is January 31. Dividends are calculated by the daily balance method which applies a daily periodic rate to the balance in the account each day. Dividends will begin to accrue on the business day you deposit non-cash items (e.g., checks) to your account if deposited before the close of business.
